

Legally binding e-signatures. World-class security

Safeguard your data with SignNow, a solid e-signature solution that meets the highest security and compliance standards.

From the moment you log into your account till the moment your paper is filled out and signed, we're looking after your data's safety. In fact, it's safer having your documents stored in SignNow than keeping them on your hard drive.

Compliance certifications and regulations

SOC 2 Type II certification

SOC 2 is an auditing procedure that ensures your service providers securely manage your data to protect the interests of your organization and the privacy of your clients. As an SOC 2 certified service, SignNow meets industry standards for security, availability, processing, confidentiality and privacy of your data.

HIPAA compliance

The Health Insurance Portability and Accountability Act (HIPAA) is focused on providing patients with quality care, protecting confidential data and regulating doctor-patient relationships. SignNow complies with the HIPAA's hosting standards for protecting the private health information of patients.

GDPR compliance

SignNow guarantees full compliance with the General Data Protection Regulation (GDPR). Customer documents and information are encrypted and accessible only by the customer. SignNow users can request the deletion of their personal data anytime.

PCI DSS compliance

Payment Card Industry Data Security Standards (PCI DSS) ensure the safety of the cardholder's data. An organization with PCI certification maintains payment security and ensures that its customers' credit card information is well-protected against cyber threats and attacks.

21 CFR Part 11 compliance

Organizational settings and functionality within SignNow are in full compliance with CFR regulations. They include: two-factor authentication, session duration and timeouts due to inactivity, e-signature timestamps, digital certification and document history retention.

ESIGN compliance

According to the E-SIGN Act, an e-signed contract has the same legal validity and enforceability as a hard copy. Since SignNow complies with the E-Sign Act, you may use it for your business and daily tasks as you would a pen.

CCPA compliance

SignNow complies with the California Consumers Protection Act 2018 requirements, ensuring the protection of personal data and personal privacy when collecting and using customer information.
